Genotype−by−environment means from aman dataset.
Red line: arithmetic mean per year. Black line: linear Regression y = a + bx.

Genotype−by−environment means from aman dataset.
Red line: arithmetic mean per year. Black line: linear Regression y = a + bx.

Genotype−by−environment means from boro dataset.
Red line: arithmetic mean per year. Black line: linear Regression y = a + bx.

Genotype−by−environment means from boro dataset.
Red line: arithmetic mean per year. Black line: linear Regression y = a + bx.
